

ULTIMA™ SERIES

55 TON CAPACITY

**130,000 PSI Fabricated Mainbeams
20" Loaded Deck Height**

SOME OPTIONAL
EQUIPMENT MAY BE SHOWN.

The ROGERS® **ULTIMA™ CR55** - our high performance 55-ton capacity detachable gooseneck trailer. It features a low, tapered front end; the "No Foot"® self-lifting gooseneck; and a "bucket pocket" in the deck. It's design of 1/2 load concentration, 55 tons in any 12'-6" of deck, means more load options. The wide "boom trough" combines with the 20" loaded deck height for the industry's lowest transport height.

STANDARD FEATURES

■ Sloped 30° bridge ramps give easy access to the rear frame. The deck's (3) notched cross members, the "bucket pocket," combines with the "boom trough" of the rear frame to allow more overhead clearance. This Ultima™ CR55 includes air ride suspension, LED light package, and the hinges and pins installed for a removable 4th axle.

■ Full 1 3/4" air-dried oak decking is installed with carriage bolts and cupped washers. Removable swinging side brackets widen the deck to 10'-6". The rear frame has wide trunnions and the axle spacing is 54 1/2". Each axle has spring parking brakes and premium 4S/2M anti-lock braking system.

■ The powerful "No Foot"® self-lifting tower style gooseneck operates with low hydraulic pressure. It can easily lift the rated load on any terrain and can quickly change deck height to clear any obstruction. It also features extension blocks that provide 4" of adjustment to the 5th wheel height.

...since 1905

THE ULTIMATE IN TRAILERS®

STANDARD FEATURES

- 1/2 load concentration on 14" deep beams.
- 25'-0" x 102" platform deck with 20" loaded height.
- Axle spacing 54 1/2".
- Hydraulic gooseneck jack with paddle and shoe.
- Side member flange reinforcing of first 6'-0" of deck.
- Full 1 3/4" air-dried oak decking; No center boards.
- Twenty-four (24) removable swinging side brackets.
- Sixteen (16) bent lashing D's.
- "Bucket pocket" in the deck.
- Sloped bridge ramps; trunnions; "boom trough".
- Preparation for removable 4th axle.
- LED Lights: US DOT 12-volt rubber-mounted with sealed wiring system and 7-wire socket.
- Epoxy primer; ROGERS Red or Black enamel finish.

OPTIONAL EQUIPMENT

- Gooseneck fenders.
- 13 HP gas engine power unit.
- Hydraulic trap doors.
- Toolbox, gooseneck or deck.
- Front folding ramps.
- Center boards, installed or loose.
- Reinforced 1/4" smooth plate wheel covers.
- Aluminum disc wheels.
- Hubodometer.
- Air lift on 3rd axle.
- US DOT safety light system w/ "Deep Cycle" battery.
- Removable 4th axle.
- Backup warning alarm, electronic or mechanical.
- Other ROGERS paint colors available.
