Does the competition include all of these Rogers standard features?

- ✓ A "Scraperneck" feature, the lowest standard gooseneck design available
- ✓ An integral hatbox to maximize your tractor's frame, fender, and tire clearance
- ✓ Low-pressure hydraulics, standard 2,000 psi tractor PTO is all that's required
- ✓ Solid, one-piece gooseneck to resist twisting and yaw
- ✓ Concealed, flush deck hooks that won't damage low-ground clearance equipment
- ✓ 20" loaded deck height with 6" ground clearance; mainbeams fabricated from 130,000 psi and 100,000 psi steel
- ✓ A "cylinder pocket" and a "boom well" for the industry's lowest excavator transport height
- ✓ Tested and certified "D-rings" that exceed today's load securement regulations
- ✓ Spring-loaded parking brakes for improved loading and unloading safety
- ✓ 4S-2M ABS braking system for increased safety and extended tire life
- ✓ Unparalleled "Fit and Finish"
- ✓ Nearly 100 years of design innovation from a family-owned business

Check out our complete line of stock model detachable goosenecks, fixed goosenecks and tag-alongs; and our specialized models, designed to meet your special needs.
